Subject: Consultation Follow-up

Good Afternoon Jason,

Thank you for the opportunity to meet in person last week regarding the Proposed Determination of the U.S. Environmental Protection Agency Region 10 Pursuant to Section 404(c) of the Clean Water Act Pebble Deposit Area (Proposed Determination). Our Region appreciated the full and frank exchange of views during the consultation and appreciated the time you took to meet with us in person in Anchorage.

If there were specific questions raised by your leadership and those were not addressed in the meeting, we encourage you to submit written comments by September 19th, 2014. Information on how to submit written comments may be found on EPA's Bristol Bay web page (www.epa.gov/bristolbay). If your leadership would like additional consultation between now and September 19th please let me know ASAP so we can plan accordingly. As discussed in the consultation meeting this would likely need to occur via the telephone or in one of our EPA Region 10 offices in Anchorage or Seattle.

If you have any questions regarding next steps in the consultation process please let me know. In the event you have any questions about EPA Region 10's consultation process, I have also included a link to our EPA Region 10 Tribal Consultation and Coordination Procedures and Executive Order 13175.
